## EXCELLENCE AT SPOGA 2009

MAMAGREEN presented its 2010 catalogue with great success at Spoga.

For the second year, the booth E030 in Hall 2.2, the "Hall of Excellence", became the center of attention for design-loving visitors from Germany, Austria, Switzerland, the Benelux and a range of other mainly European countries.

MAMAGREEN expanded its range of FSC-certified recycled teak furniture with contemporary designs in innovative materials, targeted exclusively at the upper end of the market. Outdoor faux leather, woven Batyline and Sunbrella fabrics in trendy colors gave the booth that typical MAMAGREEN resort feeling.

The higher than expected number of visitors and sales results reflects the growing success of MAMAGREEN's ecofabulous design in the European market.
